Current Switchable

Technical

General

External Dimension:	248*104*49mm
Weight:	2.8kg
Operating Temperature:	-30°C ~ +50°C

Charging

Input Voltage:	Single-phase 230V AC
Input Current:	13A (MAX)
Input Frequency:	50Hz / 60Hz
Maximum Power:	3 kw(MAX)
Certificate:	CE / RoHS / FCC
Applicable Scene:	Indoor / outdoor
IK Class:	IK10
IP Class:	IP66
RCD:	Type A+ DC 6mA
Total Length:	5 Meter (Customizable)

Product Features

The LED indicator on the plug and the streamlined indicator on the control box allow you to easily monitor the charging process.

3 kinds of current regulation, can be switched according to demand.

The LED light on the tip of the gun lights up when charging, and goes out after fully charged. The special patented design can quickly observe the charging situation in the dark.

The streamlined indicator light design on the control box is beautiful and unique, helping you attract more customers' attention.
